## WHAT IS THIS PRODUCT?

**Type:** The product is a share class of the Flossbach von Storch - Global Emerging Markets Equities sub-fund, which is part of the Flossbach von Storch fund, a Luxembourg investment fund (fonds commun de placement – FCP) that has been established in the form of an umbrella fund and is subject to Part I of the Luxembourg Law of 17 December 2010 (Law of 2010), as amended, and thus qualifies as a UCITS. The assets and liabilities of each sub-fund are segregated by law.

**Term:** The product has an unlimited term. Notwithstanding this, the product may at any time be liquidated by the Management Company. As a rule, investors can redeem their units on any Luxembourg banking day except 24 and 31 December. The manufacturer may suspend redemption if exceptional circumstances make this appear necessary when investor interests are taken into account.

### Objectives:

The objective of the investment policy of the Flossbach von Storch - Global Emerging Markets Equities (the "sub-fund") is to achieve above-average long-term growth in the sub-fund's currency while taking into consideration the risk involved for the investors. The investment focus is on investments in equities of companies based in emerging markets or companies based in developed countries, provided that the business performance of the respective company is expected to be strongly dependent on the economic development of the emerging markets and that companies benefit from an economic upturn in the emerging markets. The companies are characterised by above-average profit growth, qualified management, a promising market position and a solid financial structure. As the risk level in emerging markets is generally high, the risk should be reduced through balanced diversification. The sub-fund is actively managed. The MSCI Emerging Markets Daily Net Total Return Index is used as a reference for comparing the performance of the sub-fund. The fund manager is not bound to the index at any time when making investment decisions. The performance of the sub-fund can therefore deviate significantly from the benchmark.

The sub-fund invests at least 60 per cent directly in equities of issuers based in emerging markets or companies based in developed countries if it is expected that the business performance of the respective company will be strongly dependent on the economic development of the emerging markets and that companies will benefit from an economic upturn in the emerging markets as well as in equity funds and share certificates. In addition, the sub-fund may invest in other assets pursuant to Article 4 of the management regulations. When buying shares, the sub-fund has the option to use the Shanghai and Shenzhen Hong Kong Stock Connect ("SHSC") programme to purchase permitted Chinese A shares. The sub-fund is an equity fund. Units in UCITS or other UCI ("target funds") may be acquired up to a maximum limit of 10%. The use of derived financial instruments ("derivatives") is planned in order to achieve the aforementioned investment objectives, as well as for investment and hedging purposes. The current sales prospectus provides detailed information on the above and other investment opportunities available to the sub-fund. This sub-fund may not be suitable for investors that want to withdraw their capital from the sub-fund within a period of 5 years. This unit class does not distribute any income to investors, but instead reinvests it.

The sub-fund promotes environmental and social characteristics as defined in Article 8 of Regulation (EU) 2019/2088. Flossbach von Storch follows a holistic sustainability approach across the group: As a long-term investor, Flossbach von Storch attaches importance to companies dealing responsibly with their environmental and social footprint and actively counteracting negative impacts of their activities.

## WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

### Summary Risk Indicator

The summary risk indicator ("SRI") is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity of the fund to pay you.

The risk indicator assumes you keep the product for a minimum of 5 Years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

Unusual market conditions could arise, for example, due to currency, creditworthiness, price, counterparty, liquidity and interest rate risks, as detailed in the sales prospectus.

This product does not include any protection from future market performance. Please refer to the 'Risk' section of the prospectus for more details.

## Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product/a suitable benchmark completed where applicable by that of its reference framework over the last 10 years. Markets could develop very differently in the future.

Favourable: This type of scenario occurred for an investment between January 2016 and January 2021.

## WHAT HAPPENS IF FLOSSBACH VON STORCH INVEST S.A. IS UNABLE TO PAY OUT?

The sub-fund assets are segregated from the assets of the Management Company. The Depositary is responsible for holding the assets of the fund in safekeeping. If the Management Company defaults, it will have no direct financial effect on the sub-fund. In addition, the sub-fund assets are segregated from the assets of the Depositary, which reduces the risk of the sub-fund suffering a loss if the Depositary defaults. There is no investor compensation or guarantee scheme if the Management Company or the Depositary defaults.

## WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested.

	If you exit after 1 Year	If you exit after 5 Years
<b>Total Costs</b>	<b>315 EUR</b>	<b>1685 EUR</b>
Annual Cost Impact	3.1 %	2.6 % each year

\*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.4% before costs and 5.8% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

### Composition of Costs

One-off costs upon entry or exit		If you exit after 1 Year
<b>Entry costs</b>	1.00% maximum of the amount you pay in when entering this investment. These costs are already included in the price you pay.	Up to 100 EUR
<b>Exit costs</b>	We do not charge an exit fee.	Not applicable
<b>Ongoing costs</b>		
<b>Management fees and other administrative or operating costs</b>	2.10% of the value of your investment per year. This is an estimate based on actual costs over the last year.	208 EUR
<b>Portfolio transaction costs</b>	0.07% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	7 EUR
<b>Incidental costs taken under specific conditions</b>		
<b>Performance Fee</b>	There is no performance fee for this product.	Not applicable

## HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

**Recommended minimum holding period: 5 Years**

The recommended holding period for the sub-fund is 5 years, as the sub-fund invests for the long term. Investors can sell their units upon demand on any valuation day (as defined in the sales prospectus). Further information on the sales procedure and when sales are possible is provided in the "Redemption and exchange of units" section of the sales prospectus.
