WHAT IS THIS PRODUCT?

Type: The product is a share class of the Flossbach von Storch - Digital Essentials sub-fund, which is part of the Flossbach von Storch fund, a Luxembourg investment fund (fonds commun de placement – FCP) that has been established in the form of an umbrella fund and is subject to Part I of the Luxembourg Law of 17 December 2010 (Law of 2010), as amended, and thus qualifies as a UCITS. The assets and liabilities of each sub-fund are segregated by law.

Term: The product has an unlimited term. Notwithstanding this, the product may at any time be liquidated by the Management Company. As a rule, investors can redeem their units on any Luxembourg banking day except 24 and 31 December. The manufacturer may suspend redemption if exceptional circumstances make this appear necessary when investor interests are taken into account.

Objectives:

The objective of the investment policy of Flossbach von Storch - Digital Essentials ('sub-fund') is to achieve reasonable growth while taking into consideration the risk involved for investors. The sub-fund's investment philosophy focuses on companies that offer digital products and services that are essential for consumers, companies and institutions, as well as companies that provide the necessary infrastructure. When selecting these companies, above-average growth potential and a strong market position with the associated high earnings power are particularly important target attributes. The sub-fund is actively managed. No index is used for comparison purposes. At least 80% of the sub-fund's net assets are invested in equities. In addition, the sub-fund may invest in bonds, money market instruments, bonds, derivatives (including delta-1 certificates within the meaning of Article 2 of the Grand-Ducal Regulation of 8 February 2008) and bank deposits. If an investment is made in bonds, this will not include subordinated or convertible bonds, high-yield bonds (bonds without an investment grade rating), contingent convertible bonds, perpetual bonds or sustainable bonds ('green bonds'). Units in UCITS or other UCIs ('target funds') are only acquired up to a maximum limit of 10% of the sub-fund's net assets; the sub-fund is therefore eligible as a target fund. The use of derivative financial instruments ('derivatives') is intended to achieve the aforementioned investment objectives for both investment and hedging purposes. The current sales prospectus provides detailed information on the above and other investment opportunities available to the sub-fund. This sub-fund may not be suitable for investors who wish to withdraw their capital from the sub-fund within a period of 5 years. This unit class does not distribute any income to investors, but instead reinvests it. The sub-fund promotes environmental and social characteristics as defined in Article 8 of Regulation (EU) 2019/2088. Flossbach von Storch follows a holistic sustainability approach across the group: As a long-term investor, Flossbach von Storch attaches importance to companies managing their environmental and social footprint responsibly and actively countering the negative effects of their activities.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Summary Risk Indicator

The summary risk indicator ("SRI") is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity of the fund to pay you.

Unusual market conditions could arise, for example, due to currency, creditworthiness, price, counterparty, liquidity and interest rate risks, as detailed in the sales prospectus.

This product does not include any protection from future market performance. Please refer to the 'Risk' section of the prospectus for more details.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product/a suitable benchmark completed where applicable by that of its reference framework over the last 10 years. Markets could develop very differently in the future.

WHAT HAPPENS IF FLOSSBACH VON STORCH INVEST S.A. IS UNABLE TO PAY OUT?

The sub-fund assets are segregated from the assets of the Management Company. The Depositary is responsible for holding the assets of the fund in safekeeping. If the Management Company defaults, it will have no direct financial effect on the sub-fund. In addition, the sub-fund assets are segregated from the assets of the Depositary, which reduces the risk of the sub-fund suffering a loss if the Depositary defaults. There is no investor compensation or guarantee scheme if the Management Company or the Depositary defaults.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10 000 is invested.

	If you exit after 1 Year	If you exit after 5 Years
Total Costs	581 EUR	2443 EUR
Annual Cost Impact	5.8 %	2.3 % each year

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 22.1% before costs and 19.9% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 Year
Entry costs	5.00% maximum of the amount you pay in when entering this investment. These costs are already included in the price you pay.	Up to 500 EUR
Exit costs	We do not charge an exit fee.	Not applicable
Ongoing costs		
Management fees and other administrative or operating costs	0.81% of the value of your investment per year. This is an estimate based on actual costs over the last year.	77 EUR
Portfolio transaction costs	0.05% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	4 EUR
Incidental costs taken under specific conditions		
Performance Fee	There is no performance fee for this product.	Not applicable

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?
